WACHAU HIGHLIGHTS

The Wachau is a valley on the UNESCO World Heritage List and holds so much in store for you: myriad artistic and cultural treasures plus scenic landscapes, award-winning restaurants and world-famous wines. Enjoy the days you spend here with all your senses – eyes, palate and nose.

The dual town of Krems-Stein is more than 1,000 years old and serves as the eastern gateway to the Wachau. The town center has a large number of fine historical buildings and was added to the UNESCO World Heritage list in the year 2000. The guided walking tour ends at the Caricature Museum Krems, Austria's only museum for caricature and satire. It features extensive works by the top Austrian caricaturist Manfred Deix plus special exhibitions.

On a boat ride on the Danube from Krems to Melk, you can see the Wachau from its loveliest side.

Next is the Schallaburg, one of the loveliest Renaissance castles north of the Alps featuring two-story arcades decorated with terracotta ornamentation. The Schallaburg is a place of encounter and home of annually changing exhibitions in the international context.

The medieval town of Dürnstein is the pearl of the Wachau. The abbey church with its famous blue tower is well worth seeing, as are the striking ruins towering high above the town.

The baroque Benedictine Abbey of Göttweig is often called Austria's Montecassino because of its fantastic location.

The monumental imperial stairway and frescos by Paul Troger are impressive, as are the abbey church and the museum in the imperial wing.

DREAM GARDENS – ANCIENT ROMAN TO EUROPEAN BAROQUE

The gardens in Carnuntum offer exciting insights into the art of gardening in Ancient Rome. These Roman gardens are precursors to later ones in the Renaissance and Baroque eras. To reconstruct them, experts went beyond archeological evidence to draw on written records, pictorial representations and research findings from comparable complexes.

These gardens were characterized by a division into quadrangular planted areas with paths cutting through them at right angles, the planting of the quadrants at the corners of the beds with solitary bushes and the inclusion of berry-producing bushes to enhance the fruit orchard. You receive fortification, too: a vesper, an Ancient Roman snack.

At Hof Palace you immerse yourself in the splendid world of the Baroque era! Your tour takes you through the guestrooms of Prince Eugene of Savoy and the apartments of Maria Theresa and Joseph II. Afterwards you proceed to the terraced gardens. The Baroque gardens at Hof Palace are a kaleidoscope of plants of all shapes and colors. Visitors can stroll over the seven terraces, passing broderie beds, pergolas and magnificent fountains, all the while enchanted by the artistically designed beds. The mammoth revitalization project is nearly completed. Most recently,

the fountain on the seventh terrace was restored as were the small cascade and exquisite wrought-iron gates. After several hundred years, the terraced garden of Hof Palace has now been returned to the original size and splendor it enjoyed in the days of Prince Eugene of Savoy.

The final stop is Prince Eugene's orangery and the historical gardener's apartment.

The package includes:

- _ One overnight stay with breakfast at a three or four star hotel
- _ Tour of open-air museum in Petronell (one hour)
- _ Cup of mulsum (honeyed wine), bread and moretum (Roman spread of sheep's cheese, garlic and olive oil)
- _ Carnuntum ticket (admission to Amphitheatre Bad Deutsch-Altenburg and Museum Carnuntinum)
- _ Three-course lunch
- _ Tour of palace and gardens at Hof Palace (2.5 hours)

REDISCOVERING THE BLACK COUNT

Iron trade ushered in a flourishing period in the Mostviertel from the 14th century on. Iron from Erzberg, a mountain in Styria, was transported to the Danube via the valleys of the Mostviertel. Forges, hammer mills, and lumber driving operations sprung up throughout the alpine Mostviertel. Today visitors curious about the past can explore and find traces of this interesting era on the Iron Road. They can visit hammer mills, watch blacksmith's at work or stop at a lumber driving operation to see what kind of life the woodcutters once lived.

Itinerary:

Day 1: You arrive in Waidhofen and check into your hotel. After dinner, you join a night watchman on his nightly rounds of Waidhofen. Dressed in historical costume, he tells stories about the eventful life of a night watchman in the olden days.

Day 2: After breakfast, you visit an exhibition called Ferrum, World of Iron. It covers the fascinating history of the Eisenwurzen region from prehistoric times to the present day. For lunch you head to the local inn "An der Eisenstrasse" for a meal of regional specialties. In the afternoon, you watch a blacksmith at work at the Fahrngruber Hammer Mill in Ybbsitz.

Day 3: The Mendling Valley Adventure Park in Göstling/Ybbs gives you a glimpse of what life was like as a woodcutter and

presents a history of lumber driving at the house for journeymen smiths. Then you have the opportunity to hike through the impressive rock ravine along the Mendlingbach over bridges and walkways following in the footsteps of the woodcutters to a snack bar in Hof. You can look forward to a lunch of delicious Mostviertel fare at an Iron Road restaurant. In the afternoon, you visit the Capuchin Monastery in Gaming. The steam and diesel engines have been huffing and puffing between Gmünd, Gross Gerungs and Litschau for over 100 years and make for a low-key trip through the Waldviertel. The 40-kilometer Reblaus Express line takes you from woods to wine. You travel down into the Weinviertel at a nice slow pace, or "pomali" as we say in Austrian dialect", and pass by the sunny vineyards around Retz.

Day 3 (Sunday): You travel from Thaya Valley to the Retz region aboard the Reblaus Express. One car serves as a heuriger wine tavern, where great wines of local vintners are served.
